CliniSys™ - The Modern and Computerised Clinic Management System

Kuala Lumpur- In collaboration with its partner, MedexOne Sdn Bhd, Pharmaniaga had developed a user-friendly software as a tool to revolutionise the total front-to-back clinic data management system, CliniSys™.

CliniSys™ offers the capability to uplift the image and character of medical practitioners where patient's data, clinical notes, diagnosis, referral, medical certificate, and billing can be within the click of a button. It incorporates a new handwriting technology, which allows practitioners to still "write" clinical notes, without having to type using conventional keyboard, and certainly adds elegance and personality, as well as efficiency during consultations sessions.

CliniSys™ offers administrative functions and modules of patient registration, appointment scheduling, patient database, treatment and report generation, prescription and dispensing, billing and clinic cash flow, and inventory and ordering.

CliniSys™ supports MyKad Reader, scanner, printer, handwritten technology hardware and short text messaging (SMS). The system is developed with ability of future upgrades to keep its practicality but yet preserving the traditional way of doing business.

According to Managing Director of Pharmaniaga Berhad, Encik Azhar Hussien, In line with our motto "Enriching Life Together", the CliniSys™ solution is made available Free of Charge to our customers as a token of our appreciation for their loyalty and continuously support to the Pharmaniaga brand of products. CliniSys™ would help General Practitioners to manage their clinics effective and efficiently as well as their patients for a shorter waiting time".

ABOUT PHARMANIAGA BERHAD
